STATEWIDE

Why Idaho dropout numbers decreased significantly in 2001-2002:

- Contributing is the increasing number of Districts that are running both a regular and summer Alternative Secondary School program that not only identifies, but also helps At-risk students succeed at school.
- With the help of Dr. Haley and his committee on dropouts, a clear guideline and definition of who is a dropout was established. Using this guideline, the Idaho State Department of Education made efforts to unify the reporting from the 114 School Districts within the state. Three groups, that had shown up on the past dropout reports, but by the new guideline and definition are not dropouts are:
 1. Home instructed students.
 2. Students who transfer or move out of the country.
 3. GED students who complete a district run or tracked program.
- Also contributing, the Idaho State Department of Education has moved the 12 months reporting period to be more inline with national guidelines. By moving the 12 months reporting period from July of one year to the July of the next year, to November of one year to November of the next year also brought about a decrease in the number of reported dropouts. The fact that many students who dropout in the spring of the year, do in fact return to school in the fall of that year. With the older July end date those students would have been reported as dropouts.

Event Rate

Event rate describes the proportion of students who leave (dropout of) high school each year without completing an approved high school program. The event rate is calculated by dividing the total dropouts by the total enrollment or membership for the period by grade.

Who is a dropout?

A dropout is an individual who:

- was enrolled some time during the current year but was not enrolled at the end of the reporting period; or
- was enrolled at the end of the prior 12 month period and expected to be a part of the membership (i.e., not reported as a dropout the year before) but did not enroll in the current year; and
- has not graduated from high school or completed a state or district approved program; and
- does not meet any of the following exclusionary conditions:
 - transfer to another public school district, private school, or other state or district approved program;
 - temporary school recognized absentee due to suspension or illness, or
 - death
